

## **Job Shadowing Programme**

The Programme is for school teachers looking for a more intensive experience.

This can be arranged for teachers of English and provided at our language school throughout the school year.

Subject teachers will only be able to participate in the programme during school term.

### **PROGRAMME OF THE TRAINING ACTIVITIES**

The programme involves observations of mentor teacher, choosing and developing teaching material, giving and receiving feedback, shorter and longer teaching assignments, in-depth methodology discussions, among other activities.

As programmes are tailored to individual experience and needs we do not have a published timetable. We will conduct a thorough needs assessment prior to booking confirmation and a suitable timetable would be agreed before the placement begins.
