

## Overview

### Your First Day

On the first morning, after welcoming you to the school, we give you an Entry Test, followed by a tour of Bournemouth (preferred start dates only) and a Getting-to-Know-You session. In the afternoon, in the Induction Meeting, we explain how the school operates, how to live in England and give you your individual course timetable. You will also receive a Student Guide to Bournemouth and life in England.

### Your Progress

Throughout the course, your teachers monitor your progress carefully and give you regular tests. You are always free to discuss your studies with your teachers or the Director of Studies.

- Homework**  
Homework forms an important part of your course. The amount depends on the type of course you are following, but you should expect to do 1 to 2 hours a day.
- Certificate of Studies**  
At the end of your course, you will receive a Certificate of Studies, subject to satisfactory attendance and performance. If requested, a monthly progress report can be sent to your sponsor.
- NEWSBEET**  
BEET publishes a monthly magazine called NEWSBEET, to which all students are invited to contribute. The magazine is an interesting forum for expressing views of Britain, places you have visited, films you have seen etc. The magazine also contains recipes, poetry, articles about students' own countries, their customs, politics, arts etc.

## Course Structure

All courses follow a **Core Programme** of twenty lessons per week. You can then, if you like, choose one or two additional subjects from the **Options Programme**, to study to a further 4 or 8 lessons per week.

### Core Programmes:

We normally operate an alternating "zig-zag" timetable. This means that one day the 20-lesson core programme is in the afternoon, and the following day in the morning. Lessons on the Options Programme remain at the same time each day, normally, from 1220 to 1405. This system provides you with concentrated periods of free time, including a long weekend every other week, which makes it easier to organise your leisure time.

The school has a shared drive called Students Shared. On this drive you can find information about the school, social activities, local entertainment, courses and exams as well as some self-study materials. Emphasis is placed on encouraging your fluency and confidence in the language. Your teachers will employ the most efficient techniques to ensure you develop accurate grammar, vocabulary and pronunciation.

See pages 10 and 11.

Some of your lessons will be in a computer room, where you can use computers with interactive software and broadband connection.

You will be in a multi-national class placed with other students of the same level with the same high motivation. Our aim is to ensure you learn the maximum possible.

You will learn real English, as it is used in the world outside the classroom. Our aim is to bring you as near to native competence as possible.
