To discuss and share ideas, problems, methods and techniques with peers from other parts of the world

Course programme

Preparation

All participants are required to fill in a Pre-Course questionnaire. It is very important that this is returned at the earliest opportunity as the course is pre-planned based on this. The course content is outlined and discussed on the first morning, and is then adapted as appropriate. Students should bring a coursebook or unit for use during the programme.

Objectives

Participants will experience a variety of teaching techniques, materials, devices and procedures designed to help students acquire language. There is a focus on current methodologies and practical teaching skills that participants will evaluate for effectiveness, and also discuss ways of adapting these to fit in with different teaching contexts.

Outcomes

The process of reflecting on your own classroom experience and being exposed to a wide range of teaching techniques, as both teachers and learners, will help you to be a more knowledgeable and creative classroom practitioner.

Description of training content

This course offers 20 hours per week of teaching methodology (Monday to Friday from 09:00 to 13:30) in a maximum group size of 12.
